# Microsoft Azure Machine Learning

## INSTRUCTOR INFORMATION

Loy Vanich
084 007 5544
Line ID: laployv
laploy@gmaill.com
www.laploy.com

## TIME FRAME

- Course duration
- Start time
- Coffee break
- Lunch break
- Course end

### **COURSE OUTLINE**

## Day 1: ML Basic

- How to: ML (Machine Learning)
- How to: DS (Data Science)
- How to: FE (Feature Engineering)
- Practice: Handle Missing Value (HMV) in Azure ML
- Create: first ML

## Day 2: R Script

How to: R and DS

• How to: FE in R

• Practice: HMV in R

Make: Integration to Azure ML

## Day 3: Anaconda

- How to: Anaconda and DS
- How to: FE in Anaconda
- Practice: HMV in Anaconda
- Make: Integration to Azure ML

# Day 4: ML Front end Application

- Workshop: Create FE in C#
- Workshop: Create FE in Python
- Workshop: Create FE in R

#### Course scope

#### In scope

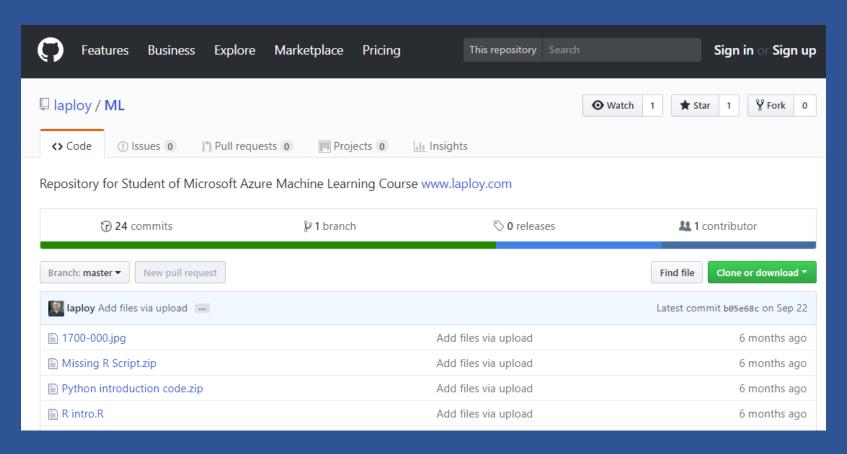

- Create ML Model in Azure ML
- Introductory of Machine learning
- Introductory of data science
- Introductory of R and Python for DS
- Basic ML programming

#### Out of scope

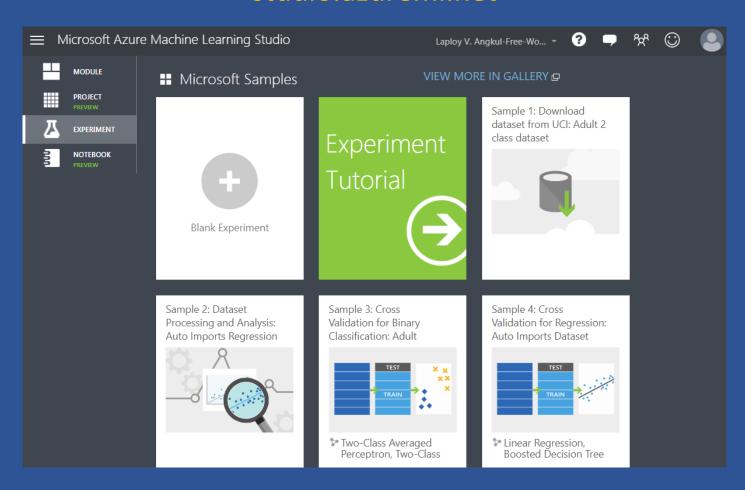

- Create ML Model with programming
- Advance Machine Learning
- Advance R or Python programming
- Deep learning
- Computer vision
- Complete data science training
